Amish Population Change 1992-2013, 21-Year Summary

|  | 1992 | 2013 | Net Gain | Percent Change |
| :--- | ---: | ---: | ---: | :---: |
| Settlements | 227 | 469 | 242 | $107 \%$ |
| Districts | 930 | 2,056 | 1,126 | $121 \%$ |
| Est. Population | 128,145 | 281,675 | 153,530 | $120 \%$ |
| States/Provinces | 23 | 31 | 8 | $35 \%$ |

## Notes:

1. Nine states have Amish settlements in 2013 that did not have any in 1992: Arkansas, Colorado, Idaho, Maine, Mississippi, Nebraska, South Dakota, West Virginia, and Wyoming. A small settlement in Georgia disbanded by 2010 making a net gain of 8 states in the 21-year period.
2. Settlement and district statistics were updated in June 2013. Population figures (adults and children) are estimates calculated by using state-sensitive averages of the estimated number of people per church district. The population per district varies by region, community, affiliation, and age of the district. Thus the actual number of people in a specific district or state may be higher or lower than the estimates in these tables. The national composite average per district is 137. The table includes all Amish groups (Old Order and New Order) that use horse-and-buggy transportation, but excludes car-driving groups such as the Beachy Amish and Amish Mennonites.

Sources: For the 1992 data, see David Luthy, "Amish Migration Patterns: 1972-1992," in Donald B. Kraybill and Marc A. Olson, The Amish Struggle with Modernity (Hanover, NH: University Press of New England, 1994), 243-59. Sources for the 2013 data include Raber's Almanac, reports of correspondents in Amish publications, the annual migration report in The Diary, state and regional settlement directories, and informants in settlements.
